Contents

Chapter 1	1
Introduction	
Adapted from BioMed Central Pediatrics 2004;4:17	
Chapter 2	7
Glutamine-enriched enteral nutrition in very low birth weight infants and effects on feeding tolerance and infectious morbidity: a randomized controlled trial.	
The American Journal of Clinical Nutrition 2005;1397-1404	
Chapter 3	21
A randomized controlled trial of enteral glutamine supplementation in very low birth weight infants: plasma amino acid concentrations.	
Journal of Pediatric Gastroenterology and Nutrition 2005;41:66-71	
Chapter 4	31
The effect of glutamine-enriched enteral nutrition on intestinal permeability in very low birth weight infants.	
Journal of Parenteral and Enteral Nutrition 2006;30:408-414	
Chapter 5	43
I. The intestinal bacterial colonization in preterm infants: a review of the literature.	
Clinical Nutrition 2006;25:361-368	
II. The effect of glutamine-enriched enteral nutrition on intestinal microflora in very low birth weight infants.	
Clinical Nutrition in press	
Chapter 6	67
Cytokine responses in very low birth weight infants receiving glutamine-enriched-enteral nutrition.	
Accepted for publication in Journal of Pediatric Gastroenterology and Nutrition	
Chapter 7	81
Glutamine-enriched enteral nutrition in VLBW infants: effect on the incidence of allergic and infectious diseases in the first year of life.	
Accepted for publication in Archives of Pediatrics and Adolescent Medicine	
Chapter 8	93
Discussion	
Summary/Samenvatting	107
References	117
Dankwoord	130
Curriculum vitae	134
